

## Increase Your Precision and Efficiency

*Your Financing Solution for the Powertome® Tooth Extraction System*

The **Powertome®** improves the tooth removal process for both surgeons and patients by providing greater control during extractions. The **Powertome®** is an automated periotome that offers extremely precise tooth extraction with minimal or no alveolar bone loss.

The surgery is often flapless so patients experience reduced pain and swelling. This translates into less chair time and faster recovery for the patient.

**Why choose to lease your the Powertome®?** More than 70% of today's businesses opt to finance their equipment for many reasons – including low upfront cost and maintaining cash and credit lines.

With WestPort Medical's financing program, you select the number of **Powertome®** systems, the length of the lease term (24 to 60 months), and the end of lease purchase option. Your payment also is fixed throughout the lease term to make future budgeting considerations easier.

Ask your WestPort Medical representative for a free pricing quote for the Powertome® system today!

**“The Powertome is one of the most effective tools available today for atraumatic extractions especially for using it in the esthetic zone.”**

*– Dr. Michael Pikos | Pikos Implant Institute*
